Education

University of Washington,
M.Sc. in Human Centered Design & Engineering
2014 - 2016, Seattle, WA

Selected coursework: User-Centered Design, User Testing , Information Visualization, Visual Communication, Qualitative User Research, User Centered Web Design.

INSA of Lyon, M.Sc. in Computer Science
2011 - 2015, Lyon, France

1st place at an innovation challenge to implement a system to track waiting lines time.

INSA of Lyon, B.Eng. in Mechanics
2009 - 2011, Lyon, France

Intensive lessons in Mechanics, Physics and Mathematics.
Ranked 28th over 665 students.

Work Experience

BitTitan, UX Designer Intern
October 2015 - December 2015, Kirkland, WA

Successfully implemented the User-Centered Design process to redesign SalesAutomation.
Conducted user research, ideation, prototyping, and user testing.
Influenced product development, and improved collaboration between teams.

BitTitan, Software Developer Intern
June 2015 - September 2015, Kirkland, WA

Created a graph visualization to help understand call scripts for BitTitan's SalesAutomation.
Makes scripts creation and visualization more efficient and error proof.
The visualization is a 10x improvement, and now a central part of the product.

SixDoors, Web Developer
May 2013 - May 2014, San Francisco, CA

Joined the company before public launch and took part in many decisions.
In charge of the development and support of SixDoors's web apps: SixDoors web store, seller's back office interface, courier mobile app, and a Shopify connector.
Gained a lot of experience with EmberJS, AngularJS and Ruby on Rails.
Used continuous integration and automatic testing.

Kreactive, Web Developer Intern
June 2013 -- August 2013, Lyon, France

Developed a mobile web app for the national French newspaper DirectMatin.
Used Sencha Touch to build an app for iPhone, iPad and Android devices.

Main Projects

DinoFit, Android fitness app
Still in development. Uses gamification techniques to keep users engaged.

CityDomination, Multiplayer geolocated mobile game
Cofounder, designer, and developer of the web site and mobile web app.
1000 downloads in the first month, featured in several local newspapers and TV channels.

Veritabs, Chrome extension for displaying tabs vertically
10 000 active users, reviewed by many tech web sites such as CNET.com or PCWrold.com.

SmartBricks, Webstore for independant LEGO artists
Package and sell custom LEGO sets designed by the LEGO community.
Developed a web store, produced building instructions and packaging.
